All faculty and staff of Griswold Public Schools will need to display a parking permit while parked on school grounds. This permit will be used to identify the owner of the vehicle in case of an emergency. The permit will also make it easier to distinguish faculty/staff vehicles from students who may be illegally parked in faculty parking lots. Please register all the vehicles that you might park on this campus. Once a permit is issued it can be used for any of the vehicles that you listed above.

A faculty parking list will be updated and sent to each of the schools secretary so that they can reach you if needed.

Thank you for your time,
 David Crandall
 School Safety Officer

Please complete this application and e-mail it or send this application thru the internal mail addressed to:
